HANDPIECE CLEANING AND LUBRICATION · H6000

H6000

Clean and lubricate up to three handpieces at once with the touch of a button. On the H6005 and H6025, built-in electric motors spin low-speed angles while they are lubricated. High-speed, low-speed and air motors of all brands are processed in a single cycle, ready for sterilization.

05 PACKING DIMENSIONS

H6000 series	17 × 15 × 18 in · 24 lb

Built-in electric motors on the H6005 and H6025. Contra angles and straight noses mount directly on the unit's E-type electric motors, which spin them during the cycle so solution reaches every gear and bearing. No separate air motor is needed.
